

Double Up Farm

A Funny Thing Happened...

On the way to a normal suburban life, David and Kate Seidel were waylaid by something else entirely! They now live in a log cabin in the woods, sharing their lives with a few horses and sheep, a flock of chickens, beehives, dogs, cats, and ever-increasing gardens.

They spend their time doing what they love. They spin their wool into yarn, make all natural soap, grow and harvest elderberries, hibiscus, and loofah sponges, cook, and can. They focus on organic, sustainable practices in everything they do.

They're never sure where it's going to take them, but they sure are living the dream at the Double Up!
