

Madison Woodworks

Madison Geer was born and raised in the Carolinas. He learned woodworking as a boy from his father and a teacher who built display cabinets for the Smithsonian. After earning a BA in Art from St. Andrews University, he moved to Charlotte where he formed his own construction company as a general contractor. In recent years he has returned to his first passion, woodworking, and started Madison Woodworks here in Charlotte. He typically uses local and reclaimed lumber as he designs and crafts vessels, bowls, furniture and other objects both useful and beautiful.
