

Good Cup Coffee Co.

The Good Cup Coffee is a family owned and operated mobile coffee shop. Relishing the flavors, textures and wide variety the Matthews Market farmers provide, it aims to create artisan drinks using MCFM offerings. Owners Joshua and Debbie Chopaz believe in family, faith and farmers and began their business in 2017. They say that the moment they walked into the Matthews Market, they felt embraced. Since becoming vendors, they hope to provide their guests with the same experience. They want to provide a refined coffee experience in a casual atmosphere. Along with being at the Market every Saturday, they do a variety of events including pop-up markets, theater show openings and parties. THEY love our Matthews family.
