

*seasonal produce fruit herbs fresh-cut flowers free range eggs*

**Clear Creek garden & field** is a small family farm near Mint Hill, in the rolling farmland of historic Clear Creek township. Growing seasonal vegetables, blueberries, sweet corn, herbs, fresh-cut flowers, seedlings to bring high-quality, sustainably-grown food to market. By practicing organic methods, (we are too small to certify) year after year the garden yields increase. The permaculture crops: asparagus, blueberries, blackberries, grapes, figs seem to thrive in this food forest. A former pasture is slowly transitioning into a native piedmont prairie, with milkweed growing for the butterfly highway. A flock of free-range chickens lay colorful eggs.

We look forward to meeting you at the Matthews Community Farmers Market
