

## Hot Pepper Herb Farm

Hot Pepper Herb Farm of Great Falls, SC was established in 2005 by Eric and Cathy McCall. They are a sustainable, all natural farm that uses only GMO-free seeds and provides seasonal vegetables, fruit, plants, berries and pepper products. You'll be hard pushed to find a better selection of peppers anywhere. There's something for everyone, ranging from sweet and mild to nuclear! With the benefit of their three high-tunnels, they can extend their growing season through the winter months. Their greenhouse allows them to provide a wide variety of starter plants for sale and planting.

Also available is its flexible, "non-traditional" CSA program which runs all year long. It gives customers the option of choosing exactly what produce they want and when to purchase it.

Contact them via Facebook page for weekly product offerings and updates:
