

Tega Hills Farm

Located south of Charlotte, NC, in Fort Mill, SC, Tega Hills Farm LLC has been providing microgreens, lettuces, herbs, and other specialty produce to restaurants, country clubs, and individuals in the Charlotte area since 1999. Mindy and Mark Robinson use controlled environment agriculture techniques along with various hydroponic systems to provide year-round local produce to their customers.

As a family farm, they are thankful for the opportunity to live where they work, to work alongside each other and their children on a daily basis, to cultivate long-term relationships with their customers, and to provide their neighbors and friends with high quality produce.

Location: 1780 Zoar Road, Fort Mill, SC
